A. S. Hitchcock - 1921.

Hawaii

Philippines

Japan

China

12

Birds

Corypha alata

that much from

John - Dental

Logan - Imported eggs

Sue - eggs = Tabak

Hawaii

18023, *Elymus aloha*

near the station, owned by
Mrs Foster's place - Honolulu
1891

18024 *Chlorostilax bipartita*

near locality 18023 (Lyon) H 80

Philippines

Mindanao. Open ground along the shore

- 18025 of the bay, behind the sea-
wall, south of the market

Carpalum ^{antilagynum Presl}
Paspalum (*serotinum* of Merrill, det)
large bundles - culms ascending
New ground.

✓ 1 Oct Eleusine indica (L.) Gaertn.
New ground

Chloris paraguayensis Steud.
✓ 18028 Chloris paraguayensis
New ground - Culms compressed
Somewhat glabrous - Vaseculae
large specimens

Eragrostis villosa (P. B.) Hitchc.
✓ 18028 Eragrostis villosa
New ground - Large prostrate
bunches - specimen only a part
a bunch

Chloris paraguayensis Steud.
✓ 18029 Chloris paraguayensis
smaller specimens than 18028

Paspalum conjugatum Berg.
✓ 18030 Paspalum conjugatum
New ground - Culms prostrate

Eleusine indica (L.) Gaertn.
✓ 18031 Eleusine indica
Large bunches - culms ascending

~~Paspalum glaucum~~
18032 ~~Paspalum glaucum~~ ^{Paly}
Wet meadow - wading

^{Pasc}
18033 Paspalum
= 18025. Erect stems - many
old culms intermixed. This seems
about like P. multinerveum etc.

^{Sw}
18034 Paspalum sagittatum
Near the water - sedge

^G
18035 Sporobolus argutus
Near the water - sedge

^{Syntherisma sanguinalis}
18036 Sporobolus sanguinalis

^{Capriola dactylo}
18037 Capriola dactylo
Sand near the water

18038 *Panicum repens* L.
New to water

18039 *Clusina indica*
Clusina indica
Shorts compressed

18040 *Cenchrus viridis* L.
Cenchrus viridis
Soon spreading, bunches

Chloris paraguayensis Steud.
18041 *Chloris paraguayensis*
The common form

(L) *Dactyloctenium aegyptium*
18042 *Dactyloctenium aegyptium*
Famine, roots on the ground

Eragrostis urucana (P.) Trin
18043 *Eragrostis urucana* Trin
Large spreading bunches - very old
culms intermixed. Probably
are annual continuously growing
peduncles various below panicle

Brachiaria distachya (L.) Beauv

18044

Product of the volume, in

quadr.

This is *B. distachya* according
to Merrill (*B. acutoloba* f. (L.)

18045

Ischaemum matrella (L.) Ktze

Ischaemum matrella

quadr.

18046

Supercata cyperoides (L.) Beauv

Supercata cyperoides

Common in the grassy flat back of
marsh

18047

Pennisetum purpurascens L.

Pennisetum purpurascens

old - cult. for forage

18048

Syntherisma sanguinalis

Syntherisma

Wet along street

18049

Eragrostis amabilis (L.) W & A

Eragrostis amabilis

Wet along street

18050 *Sporobolus pinnatus* (L.) R. Br.
Grass, near city wall

June 7 - Manila - Along river
18051 *Cratogeomys* ~~...~~
along street by river of ...
it condensed form like ...
but not ...

18052 *Mammisia exaltata* (L.) Ktze
along bank by railroad
appears to be annual

18053 *...*
Along river - ...

18054 *Bracharia distachya* (L.) Kunze
Wet in shade around house

18055 *...*
Common bamboo - culm. Many
stems 5 inches thick - some of the
bunches (like specimen) climbing
or straggling.
I think this is *B. spinescens* though
the specimen shows no flowers

18056 *Phyllis aciculata*
Climbing on trees - stem
rather woody

18057 *Bambusa spinosa*
Climbing on trees - stem
rather woody. The lower
part of stem is covered
with blackish brown or brown
scales at base.
Sheath of culm purple tinged

18058 *Apluda nutica* L
Climbing on trees - stem
rather woody.

18059 *Pennisetum contortum*
On bank. All awns in
a tangled cluster

June 5 - Mambasa - swampy soil
Chamaeraphis squarrosa (H)
18060 *Chamaeraphis muricata* Cham.
In dry grass soil, of low stature
close to ground. Serrated, leaf
a few succulent panicles, green

Paspalum longifolium L
18061 *Paspalum longifolium*
Along ditch. Large bunch. Culms
erect, Perennial.

Paspalum gaudichaudianum Presl
18062 *Paspalum* (Dec.)
In water of ditch Annual
Culms erect

Panicum auripanicum L.
18063 *Panicum*
Annual
In water of ditch
Culms erect
In decumbent or prostrate
base - prostrate

Echinochloa crispifolia R.
18064 *Echinochloa*
Annual
In water of ditch Annual
Culms erect
In water of ditch Annual
Culms erect
In water of ditch Annual
Culms erect

Echinochloa crus-galli L.
18065 *Echinochloa*
In water of ditch Annual
Culms erect

Echinochloa stagnina (R.) B.
18066 *Echinochloa*
Along ditch Perennial
Culms erect from a strong base

Syntherisma sanguinalis
18067 *Syntherisma*
Annual (erect)
Weed along track

18066 *Lichnerium aristatum* L.
Malium sp. ^{all}
Along railway bank. Perennial

18069 *Andropogon* ^{Thunberg}
Bank of Railway ^{way}
Perennial

18070 *Himalocucumis* ^{(Sw.) Ktze}
homolocucumis
In water of ditch. Perennial
Commonly cultivated in fields
ditch for irrigation. Used
as green food for horse -
Manilla.

P. Can

18071 *Andropogon intermedius*
(var. *haeckii*)
Bank of Railway ^{way}
Perennial

June 9. Manila
Ambo - about 20 miles SW of city
in the hills, all about 500 feet
18072 *Andropogon* ^{(P. Can) Ktze}
strobilatus
Grows among low
bushes on land. Perennial

Cynodon
Capriola arcuata P. B. & H.
18073 *Capriola arcuata*
Open ground in wood
The lower spikes are reflexed

Panicum tuberosum Poell
18074 *anicum tuberosum* -
lure
Open ground in a clearing
Annual

Schaesumia rugosa (Lam.) Hack
18075 *Schaesumia rugosa*
Along stream - annual
in woods.

Cynotria calyculata (Lam.) Trin
18076 *Cynotria calyculata*
Shady bank of stream

Pogonatherum panicum
18077 *Pogonatherum panicum* (Lam.) Hack
Wet rocky along stream -
partial shade

Oplismenus acutifolius (Lam.) Hack
18078 *Oplismenus acutifolius*
Floury forest in copse

Ophiorhiza monostachya
18079 *Ophiorhiza monostachya*
Grassland among shrubs

18081 *Diarrhena elongata* (Nutt.) Gray
var. *sparsa* (Nutt.) Gray
Common - mont-ous, among
stones. Sp. in *Pennsylv.*

18081 *Paspalum conjugatum* Nutt.
Paspalum conjugatum
Common - in meadows and woods, also
along streams. Culms
mostly erect - ascending, sp. in
Pennsylv. 2.

18082 *Paspalum conjugatum* Nutt.
Paspalum conjugatum
May 18 1852
Culms taller - sp. in above 4

18083 *Chenopodium graveolens* Nutt.
Chenopodium graveolens
Along sunny banks.

18084 *Scirpus setaceus* (L.) Rostk.
Scirpus setaceus ~~multicaulis~~
in wet meadows, forming
a carpet

18085 *Panicum nodosum* Nutt.
Panicum nodosum
Low & joint in *Pennsylv.*

18086 *Quercus mitis* Nutt.
Monte...
fruit ...

18089 *Panicum cordatum* Kunz
Among ...

18087 *Panicum nodosum* Kth
Monte ...

~~June 10~~ *Stenotaphrum secundatum*
18090 *Stenotaphrum secundatum* (Blind) Merr.
Short ...
as much as 3 inches tall

18088 *Panicum ...*
shrub of forest - ...

18091 *Bambusa ...*
Probably ...
Along stream

18092 *Syntherisma longiflora* (R. & S.) Steud.
ayulew...
Dumslan. C. Creeping

(Piper) Hitchc.
18093 *Syntherisma microbachne*
ayulew...
Along stream
May 10 - long...

June 10 - Alubang - 20 miles
from Uguela

18094 *Paspalum longifolium* R. & S.
Paspalum longifolium
Cell Bar. Agr. in plots

Paspalum longifolium Thunb.
18095 *Pollen Sorghum*
Cell - Bar. Agr.

(Piper) Hitchc.
18096 *Haleus sorghum sudanicum*
Sorghum...
Cell - Bar. Agr.

Panicum barbinode Trin.
18097 *Panicum barbinode*
Cell - Bar. Agr.

18098 *Folcus hirsutus* L.
Folcus hirsutus var.
Cult - Hawaii
Shrub Shrub

18099 *Paspalum dilatatum* Poir
Paspalum dilatatum
Cult - Hawaii

18100 *Bambusa spinosa* Desf.
Bambusa spinosa
Cluster of stems with many
branches around base

18101 *Paspalum longifolium* P. B.
Paspalum longifolium
Mud place Sorum Laboratory

18102 *Capriola dactyloides*
Capriola dactyloides
Mud place Sorum Laboratory

18103 *Echinochloa crus-galli*
Echinochloa crus-galli
Mud place Sorum Laboratory

18104 Saccharum spontaneum
Sacharum spontaneum
Large under various trees
mostly not in flower

18105 Paspalum vaginatum Sw
Paspalum vaginatum Sw
not in flower near Caba

59

Los Baños June 17 Orange de
Cottage & Foresty, Calicut
18106 Bambusa
From plantation at Foresty
Station - Blushy pubescent - erect

Bambusa
18107 Crunducaria?
From plantation at Foresty
Hills. Small 4-5 feet, spreading
by rootstock.

Bambusa vulgaris Trin
18108 Bambusa vulgaris
all trees by plantation

(L) Bambusa
18109 Splachnaceae
Splachnaceae
Composite
Shade of forest
differs from not the same as
the *Splachnaceae* species

(Blume) 18111
Schizostachyus diffusus
18111
Found along creek

(Blume) 18111
Chaetochloa palmata
18111
Edge of forest in partial
shade 3-5 feet

Panicum nodosum Kth
18112
Shade forest

Panicum nodosum
18113
Shady place, shrubby

(Presl) 18114
Syntherisma...
along ditch by roadside

18115
Open place

18116 *Panicum patens* L.
C.M. W. 20/11/1911

Los Rios - summit of Mt. Macabunga
(Summit about 2500 ft - 1911 M)
18117 *Panicum*

18118 *Panicum patens* L.
Summit - glaucous - sheaths
pubescent

18119 *Isachne difflua* Morotia?
Mossy bank - struggling
mat

(Ord) P. S.
18120 *Oplismenus undulatifolius*
along trail in shade at upper
altitude

Dinochloa scandens angustifolia
18121 *Dinochloa lugens*
Barbiers
Climbing on a tall tree
the section of culm some from
cupping basal part.

18122 *Imperata* ^(Handwritten)
Clearing in forest - 5-6 ft tall
all over

18123 *Panicum* ^{Handwritten}
Shade along trail

18124 *Pennisetum macrochaetum* ^{Handwritten}
Clearing in forest - 5-5 feet

18125 *Cyperus* ^{Handwritten}
Shade Forest Salween

18126 *Gigantochloa* ^{Handwritten}
Dwarf - 3 feet tall 3-4 inches
diam. Found on lower slope of
Mt.

18127 *Syntherisma longiflora* ^{Handwritten}
This appears typical
small but along road on
bank of. Creeping at base
Forest Salween

18119 *Oplismenus cuspidatus* (L.) ^{W.}
 (L.) *Oplismenus*
 Shrub above, trace at middle
 alluding. Stems different
 from 15109 or 15110
 No 15109, same form as used from
 15125 thru 15126. Name - full
 form - two, like!

18120 *Miscanthus* ^{(Thunb.) Anders}
capensis ^{Japonicus}
 at summit, in small clearing

Las Bajas - June 17 Swamps near
 town
 18130
Saccharum spontaneum L
Saccharum spontaneum
 Open moist ground

18131 *Leptochloa fusca*
Leptochloa fusca
 Rice field

18132 *Phragmites Ranka* (Paly) ^{Trin}
 Swamps - as much as 10 feet

June 12 Baguio - Trail to Santa
 Lucia. Baguio 3000, 5000.
 18133 *Themeda gigantea* (Sw.) ^{Hack}
 Open, grassy slopes below
 Baguio. Did not see this above
 Baguio. Very much as much as
 8 feet.

Habitat R. B.

Microlaena

→ 18135 *Microlaena* *Microlaena* *Microlaena*
Along bank of river, summit of mountain
Also summit of hill at Requeim
Sp. 18135 from Summit.

Calamagrostis

18135 *Calamagrostis* *Calamagrostis* *Calamagrostis*
Summit, also along bank of
at upper stretches

Agrostis

18136 *Agrostis* *Agrostis* *Agrostis*
Mossy banks, upper stretches
(only not a summit)

Festuca *Festuca* *Festuca*

18137 *Festuca* *Festuca* *Festuca*
Along bank of river, summit of mountain
near summit

Poa

18138 *Poa* *Poa* *Poa*
Along bank, near summit, also
around hill at Requeim

Oplismenus

18139 *Oplismenus* *Oplismenus* *Oplismenus*
Near shady parts toward
summit

Amundaniaria mita kayanensis ^{Hoyt}
1814 *Amundaniaria mita*
kayanensis ^{Hayt}
Swamp above road above
Bogal green 1-3 feet

Eragrostis elegantula
1814 *Eragrostis elongata*
Open ground above Baguio

Schizostachyone diffusum ^{Blume}
1814 *Schizostachyone diffusum*
Common on the mountain below
Santo Tomas. There are 2 forms
apparently the same species.
1 has narrower blades and the
other wider blades. Stems glabrous
or hirsute. Stem mostly smooth.
The specimens are from differ-
ent plants

(1814) *Chaetochloa palmata*
1814 *Chaetochloa palmata*
Very hard - partial shade.
Several specimens. The same
as large plant with same
cuticle with granular, drooping
branches

Isachne huenei ^{Hoyt}
1814 *Isachne huenei*
Edge of forest along trail
above Baguio

Capillipedium ^{Blume}
1814 *Capillipedium*
erect, stem 1/2 inch in diam,
distinct.
From slope on open
hill above Baguio.

18146 *Apluda myrtica* L
Grassy slope above Pagua

Ischaemum benepkei Hack
18147 *Ischaemum benepkei*
Moist slopes along trail

18148 *Sacciolepis indica* (L) Chase
Sacciolepis (Panicum)
moisture of woods level

F. Muell
18149 *Ischaemum armatum*
along roadside, 4000 ft
edge of forest along trail
shrubbery, very decumbent
growing up to 1000 ft, annual,

Oplismenus compositus (L) Chase
18150 *Oplismenus compositus*
along
moist shady banks.

Nees & Meyen
18151 *Syntherisma chinensis*
Syntherisma chinensis
Along with ground along
trail. This form, different
from *S. longiflorum* which
has usually 2 spikes

18152 *Miscanthus succesis* ^{Aud.}
Slopes of open hills
A *tripartita* form,
the species is common and
after dominance

18153 *Miscanthus succesis* ^{Aud.}
Hills and meadows, common

18154 *Pennisetum alopecuroides* ^{(L.) Sp.}
Pennisetum alopecuroides
Open grassy hills

18155 *Syntherisma chinensis* (Desf.) ^{Retz}
Syntherisma chinensis
Slopes of open hills - only 2
spots but more common

18156 *Eragrostis elongata* (Willd.) ^{Desf.}
Eragrostis elongata
Open new ground above
bank above Baguio. Mostly prostrate

18157 *Arundinella setosa* Trin.
Arundinella setosa
Grassy hills above Baguio
Common.

18158 ^{R. H. B.} *Chrysopogon filipinensis*
Grassy hills above Baguio
Common

18159 ^{Maurandia rotundifolia (R. H. B.) Kt.}
~~Maurandia rotundifolia~~
Open grassy slopes

18160 *Miscanthus* ^{(Thunb.) Anders}
~~Japanese~~
Ravines

18161 *Panicum repens*
Around Baguio

18162 *Echinochloa crus-galli* (L.) Beauv.
Wet places around Baguio

18163 *Syntherisma microbachne* ^{(Presl) Hitchc.}
Wet around Baguio

Paspalum cartilagineum Presl
18164 *Paspalum (Panicum) -*
Colum.
Moss along roads
and gulches Baguio

18165 *Trachypogon debilis* R. Br.
Trachypogon debilis
Moss forest

Syntherisma chinensis (Nees) Gilg
18166 *Syntherisma chinensis*
Along road, probably
same as 18157 but severely
crushed

18167 *Capillipedium*
~~*Capillipedium*~~ *microanthemum*
Sunny slope, C. of B. 12

Chaetochloa palmigera (Nees) Gilg
18168 *Chaetochloa palmigera*
Rocks and shady place.

Sporobolus elongatus R. Br.
18169 *Sporobolus elongatus*
Along road and on forest
slope. Seems as if introduced.
Panicum often "small". Probably
the same as the W. I. *verticillatus*

Syntherisma sanguinalis

1817 *Syntherisma sanguinalis*
at mouth of stream near Baguio
rare

1817 *Thymella ^{Frich} torandrea*
Sunny hills above
Baguio? Common

= *Eulalia argentea* Brongn.

18172 *Pellaea argentea*
Pellaea argentea
Sunny slopes above
Baguio

Eulalia quadrinervis (Hack) Ktze

Pellaea quadrinervis

18173 *Pellaea quadrinervis*
moss?
Sunny slopes above Baguio

18174 *Antrophyon ciliaris* *centrasiatum*
Moss shaded bank, at upper
altitude.

not in *Herb. Ktze*
fraxin. ciliaris
no ciliaris in *Herb. Ktze*

18175 *Antrophyon ciliaris* *centrasiatum*
